

Company

- **History**

Kuomiokoski Ltd. is one of the oldest shoe manufacturers in Finland. We have been in business since 1928. We operate in the village of Kuomiokoski, located in South-Eastern Finland.

The company started its operations by manufacturing insoles and gradually extended to the manufacturing of slippers, different kinds of shoe components and ready made shoes. In 1989 the first kuoma children's winterboots were produced and in 1990's kuoma® winterboots gained wide popularity in Finland as winter footwear for children. After this their popularity has steadily grown and kuoma® boots have conquered also the neighbouring countries.

- **Products**

Nowadays our main products are kuoma® winter and sports footwear, and insoles. We manufacture also different kinds of plastic and wooden products, such as paint brush handles and sports wear paddings.

The craftsmanship and skills developed during the years as well as continuous product development ensure the compatibility of the footwear and the Nordic climate. Kuoma® footwear is known for comfort, lightness and quality.

**The Finnish Key flag,
a symbol of Finnish origin**

All kuoma® footwear products are produced in Finland and they have received the Finnish Key flag recognition for being a Finnish product. High quality materials are used in the production of the footwear and quality control is an important part of the manufacturing process in several phases.
